“Ambitious Strategic Management and Statistics Master's student with strong experience in quantitative analysis and supply chain management. Previously worked in a SaaS company. Highly skilled in math&stat softwares and excellent people skills. Seeking challenges as a data analyst and project manager focusing on big data.”

EXPERIENCE

Data Analyst, Helsinki, Finland 4—8/2017, (5 months)

RELEX Solutions | *Europe's fastest growing provider of integrated retail & supply chain planning solutions*

- Analyst and Project Manager tasks for client and sales projects from Finland and abroad
- Built quantitative reports using Excel (VLOOKUP, IF Statements) and RELEX Software (Sales forecasts, stock predictions, KPIs reporting)
- Improved clients' ability to use software, solved hectic situations (data missing, adapter problems, software updates) resulting to superior customer feedback

IPR Analyst Intern, Helsinki, Finland 5—12/2016, (8 months)

Outotec Oyj | *Global leader in minerals and metals processing technology*

- Intellectual Property Rights (IPR) management, communicated worldwide, operative database management
- Appraised to be most efficient intern ever, kept our mailbox near zero, previously +100 unread emails
- Additional responsibilities: An archiving project (Excel) to boost our team's daily work and a literature review (LaTeX) to advance my studies

Data Research Assistant, Helsinki, Finland (Espoo) 6—8/2015, (3 months)

Aalto University | *Leading Finnish university where science and art meets technology and business*

- Data analysis and statistical tests with R and Excel, also data visualization using tools such as ggplot2
- Carried out my Bachelor's thesis which was appraised with the best grade
